Learning SAS® by Example
A Programmer's Guide

Ron Cody

Ssas.

System Requirements

- SAS®9 or later
- Microsoft Windows 2000, Windows NT, or Windows XP
- Microsoft Internet Explorer 6.0 or later
- Adobe Reader 6.0 or later

License Agreement

PLEASE READ THE LICENSE AGREEMENT BEFORE LOADING THIS CD ON YOUR COMPUTER. BY LOADING THE CD ON YOUR COMPUTER, YOU AGREE TO ACCEPT AND ABIDE BY THE SOFTWARE LICENSE AGREEMENT.

About the Files on This CD

The following files are included on this CD:

File Name	Explanation
Create_Datasets.sas	This file creates all the SAS data sets used in the programs and problems in the book. Run this SAS program to create the data sets. Remember to edit all the LIBNAME and INFILE statements to point to the folder where you store the data files and where you want to store your permanent SAS data sets.
Answers to Odd Problems.sas	This file contains the solutions to the odd-numbered problems that are included at the end of each chapter in the book.
Programs used in book.sas	This file contains the SAS programs that are used in the book.
Programs used in problems.sas	This file contains either the data (which you need to cut-and-paste) or the SAS programs that you need to run to create the SAS data sets that are used in the problems in the book.
All TXT files	These files are used by the programs and problems in the book.
All CSV and XLS files	These files are used by the programs and problems in the book.

How to Access These Files

1. Copy all the .sas files from this CD to a folder on your hard drive. (Note: Because this CD has an auto start program, from the menu, right-click the CD drive icon and select **Open** to access the files.)
2. Before you run any of the SAS programs (such as Create_Datasets.sas), you need to use the SAS Editor (or any other editor) to search for the folder used in the book (c:\books\learning) and replace c:\books\learning with the name of the folder where you copied the CD files and where you want to store your permanent SAS programs. This step changes all the LIBNAME and INFILE statements in these programs.
3. For example, if you copied all the files from the CD to a folder on your hard drive named c:\learn, and you want to run the Create_Datasets.sas program, you would do the following:
   a. Start a SAS session.
   b. Open the Create_Datasets.sas file.
   c. From the menu, select **Edit->Replace**.
   d. In the Find box, type **c:\books\learning**.
   e. In the Replace box, type **c:\learn.**
   f. Select **Replace All**.
   g. Save the edited program.
   h. Submit the edited program.

SAS Publishing License Agreement

Important – Please carefully read the terms and conditions of this License Agreement ("Agreement") before installing the enclosed software. By installing the enclosed software ("Product"), you, the purchaser and end user ("Customer") agree to these terms and SAS Institute Inc. ("SAS") will authorize access to and use of the requested Product. If Customer does not agree to all of the terms of this Agreement, Customer must return the Product to SAS. If Customer paid for the Product, Customer may obtain a refund by returning proof of payment along with the Product within thirty (30) days from the date of purchase. If Customer received its copy of the Product at no charge as part of the annual license for SAS software, then Customer will not be entitled to a refund because no payment was made for the Product.

1. **License Grant**

   Under the terms and conditions hereinafter set forth, SAS grants to Customer a nonsublicensable and nonexclusive license to access and use the Product as follows:

   Customer may copy the Product to a single hard disk of computer hardware that is owned or controlled by Customer for Customer's personal use. Customer may also print pages of the Product for the individual use of Customer. Customer may not load the Product on either an external internet or an internal intranet server. Customer must retain the original media containing the Product during the term of this Agreement. Customer may not duplicate the original media containing the Product except as necessary for backup purposes. Customer may transfer the Product and this Agreement to another party, provided that the other party agrees to accept the Terms and Conditions of this Agreement. If Customer transfers the Product to another party, this license for access to and use of the Product will transfer to the other party and Customer will not retain any rights with respect to access to or use of the Product and must destroy or remove from all hard drives, networks, and any other storage media all copies of the Product, retaining no portions thereof.

   If you received the Product free of charge with your SAS software order, your Master License Agreement with SAS shall supersede and replace this Agreement.

2. **Restrictions**

   Customer may not, directly or indirectly: (1) modify, translate, reverse engineer, decompile, disassemble (except to the extent applicable laws specifically prohibit such restriction) the Product; (2) create derivative works based on the Product; (3) copy and distribute (except as specifically authorized herein) the Product; (4) rent, lease, sell, or otherwise transfer any printed pages of the Product to any third party; or (5) remove any proprietary notices or labels contained in or on the Product.

3. **Intellectual Property Rights**

   The Product is copyrighted and is protected by the copyright laws of the United States and international copyright treaties. Title to the Product and all other rights remain with SAS or its licensor(s) at all times. Customer agrees to abide by United States and international copyright laws and treaties, and all other applicable laws and regulations including, but not limited to, export control laws and regulations.

4. **Government Use**

   Use, duplication, or disclosure of the Product and related documentation by the U.S. Government is subject to this Agreement and the restrictions as set forth in FAR 52.227-19, Commercial Computer Software – Restricted Rights (June 1987).

5. **Export Restrictions**

   In addition to the prohibitions set forth elsewhere in this Agreement, Customer may not access, download or otherwise export or reexport the Product or any underlying information or technology except in full compliance with all laws and regulations of the United States of America and in full compliance with any other applicable laws and regulations. Customer affirms that each authorized end user is a lawfully admitted permanent resident of and located in a country to which the United States permits SAS to send the Product. Customer further affirms that Customer: (1) is a party to whom the United States allows SAS to license the Product; (2) is not on any United States Government list of parties to whom SAS may not license the Product; and (3) will not allow any such party to access the Product. The current list of parties to whom SAS may not license the Product include, but is not limited to, parties who are

involved in terrorism or who will use the Product for design, development, or production of nuclear, chemical, or biological weapons, or missiles.

6. **Termination**

Customer may terminate this Agreement and the license granted herein at any time by destroying or removing from all hard drives, networks, and any other storage media all copies of the Product. SAS may immediately terminate the license for a breach of this Agreement. Upon receiving notice of termination from SAS, Customer agrees to destroy or remove from such storage media all copies of the Product. The following sections of this Agreement survive termination or expiration of the license: 2, 3, 4, 5, 6, 7, 8, 9, 10, and 11.

7. **Limited Warranty**

SAS warrants that it has the right to license access to and use of the Product to Customer. SAS and its licensors disclaim all other warranties, express or implied, including, but not limited to, any implied warranties of merchantability and/or fitness for a particular purpose, whether alleged to arise by law, by reason of custom or usage in the trade, or by course of dealing. Because some jurisdictions do not allow the waiver or exclusion of implied warranties, the limitations in this Section 7 may not be wholly enforceable.

8. **Limitation of Liability**

SAS and its licensors shall have no liability with respect to their obligations under this Agreement or otherwise for special, incidental, consequential, punitive, or exemplary damages even if advised of the possibility of such damages. In no event shall SAS' and its licensors' liability for all reasons and upon all causes of action in the aggregate exceed the license fees paid by Customer to SAS for the Product. Because some jurisdictions do not allow the limitation of liability for incidental or consequential damages, the limitation in this Section 8 may not be wholly enforceable.

9. **Governing Law**

This Agreement is governed by and construed in accordance with the laws of the State of North Carolina, excluding choice of law provisions, and of the United States of America. The parties expressly exclude the application of the United Nations Convention on Contracts for the International Sale of Goods to this Agreement.

10. **Complete Agreement**

Subject to the exception outlined in Section 1, this Agreement and any invoices relating to the Product constitute the complete agreement between Customer and SAS Institute Inc. related to the Product and supersede any purchase order, communications, or representations regarding the Product.

11. **Miscellaneous**

Failure to require compliance with a part of this Agreement is not a waiver of that part. If a court of competent jurisdiction finds any part of this Agreement unenforceable, that part is excluded, but the rest of this Agreement remains in full force and effect. Any additions or modifications to this Agreement must be approved in writing signed by both parties. Breach of SAS' intellectual property rights will lead to damages not adequately remedied by an award of money; therefore, the parties agree that SAS may protect those intellectual property rights through temporary restraining orders or injunctions, without the obligation of posting bond.
